^a Variable added to the Doctorate Records File in 2017.

^b Variable added to the Doctorate Records File in 2015.

^c In 2012, survey stopped collecting data for this item.

^d Variable added to the Doctorate Records File in 2014.

^e Methodology reports prior to 2014 reported BAEYEAR as CEYEAR.

^f Variable has low response rate because although all respondents are considered eligible to provide data for item, not all eligible respondents were able to do so.

^g Response rate counts respondents who reported being U.S. citizens or permanent residents or temporary visa holders and provided country of citizenship.

^h Item appeared on survey form for the first time in 2010 (see "Notes").

ⁱ Item appeared on survey form for the first time in 2012 (see "Notes").

^j Methodology reports prior to 2014 reported PHDEYEAR as PHDENTRY.

^k In 2017, survey stopped collecting data for this item.

^l Item appeared on all survey forms except 2007–09.

^m Item appeared on survey form for the first time in 2008 (see "Notes").

ⁿ Methodology reports prior to 2011 reported SALARYR as SALARY.

Note(s)

Response rate is the percentage of cases providing data on an item divided by the universe of doctorate recipients eligible to answer that item. For most data items, all doctorate recipient respondents are in the universe of eligible respondents. However, for some of the new survey data items introduced for the first time, not all eligible respondents were able to provide data due to completing earlier versions of the survey but are reported in subsequent years, when the item became available to the entire respondent universe.
